NTU Events and Conferencing
Wireless/Wired Access Information Sheet

NTU EVENTS AND CONFERENCING NETWORK

Delegates can connect to our dedicated wireless network to access resources.

WIRELESS NETWORK

The wireless network is broadcast as ntu-EventsandConferencing This network is open and not secure and should not be used to send confidential data without using some form of VPN.

Users must accept the "Acceptable Use Policy" displayed on the login page (see imaged below)

NTU Events and Conferencing staff create delegate username and passwords for the individual conferences and events taking place
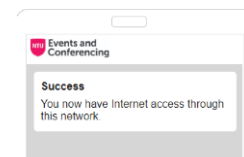

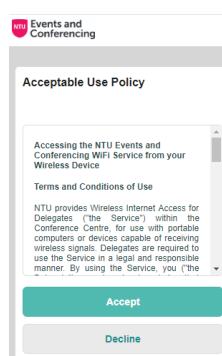

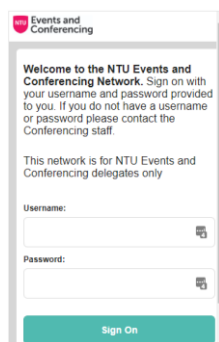

MOBILE CLIENT DELEGATE VIEW

When a delegate is registered they will then be able to search for the Wi-Fi network ntu-EventsandConferencing

They can then enter the supplied username and password created

Once connected on a mobile device you will be re-directed to a page as below. You will need a username and password which will be supplied by our staff. .

AUP (terms and conditions) is then asked to be accepted before network access is granted. Once the delegate logs in, the device will be remembered by the network for 24 hr periods. This means a delegate will only be asked to login with their credentials once per 24 hrs.

LAPTOP CLIENTS

Laptops select the Wi-Fi network. Once connected to ntu-EventsandConferencing the Wi-Fi network the delegate will need to go to a web browser and select any web site. This will trigger a re-direction to the delegate portal page. From here the delegate will login as above.

WIRED NETWORK

NTU Events and Conferencing can support limited requests for a wired connection (i.e. such as streaming or a need for a dedicated connection rather than a Wi-Fi connection). Please discuss this request with your Conference Coordinator at least 14 working days prior to your event taking place. Please note that it may not be possible to support last minute requests.
